

*“Except the LORD build the house, they labour in vain that build it...” Psalm 127:1*

The United States of America was founded on the timeless principles of God’s Word. The founders knew, however, that greed and power would ultimately corrupt even the best laid foundation. Men throughout history have only torn down the good. They never preserve or strengthen it. We are witnessing firsthand, in our nation, the imposition

of greed and power over principle. Our politicians have become the butt of well deserved jokes and slander. Instead of leading, they are bleeding our country dry of its wealth and good name. It is a well known fact that a man will spend millions to gain a political office that only pays a pittance by comparison. Why? Their character belies the fact that they “just want to serve.” When a man of integrity and honesty does finally step forward, he is “tarred and feathered” by all those who hold political power and influence. The mainstream media is one of the biggest culprits. For all their proclamations of “unbiased” reporting, one might as well read fiction to find truth. There is no such thing as “unbiased.” Even the most God-fearing man is biased. The point is to make sure that your bias is righteousness, not evil. Even God is biased. His bias is Virtue and Holiness. Our founding fathers wrote many dire warnings concerning the subtlety of evil men and the apathy and ignorance of a complacent population. Our pastors and preachers have consistently allowed themselves to be muzzled under the pretext of kindness or non-interference in government. There is no law that forbids anyone, including pastors, the right to speak out against corruption in government. It’s called “Free Speech,” and it is protected under the first amendment. We have allowed purveyors of evil and pornography liberties of publication that are forbidden to our pastors and preachers. Why? Right has never changed. Truth is still Truth. Public speech is still a protected right. It was preserved by the founders primarily so that the people, and that includes pastors, could speak out against tyranny and corruption! If there was ever a time our nation needed the Gospel of Jesus Christ, it’s now! We have become so corrupt that in many parts of the world we are known as “The Great Satan.” What a comment on a “Christian” nation! We have let our highest court become a legislative body instead of only ruling on the constitutionality of laws passes by Congress. Most of our citizenry do not even have a clue which power belongs to which branch of government; let alone what the branches are. Lust for money and power have become the driving influences of our nation. We must once again become *“one nation under God, or we will become a nation gone under.”* (President Ronald Reagan)

*“The wicked shall be turned into hell, and all the nations that forget God.” Psalm 9:17*
